What was your favorite subject in school and why?..	I loved both English and Art equally. English was fun because I loved to read and write anyways and excelled in that class so it was always rewarding. Art was just a really fun and easy class for me. <u>Self expression</u> was always fun..
Do you have any artistic abilities? Please list:..	<u>sing/song write</u> , play guitar, mix/edit songs with recording programs, drawing, oil paints and I love photography..
Do you have any athletic abilities? Please list:..	In the summer I love to hike, wake board, rock climb, play volleyball, basketball and swim. In the winter LOVE snowboarding and going to the gym when I'm not on the slopes. I can do ALMOST anything I try. I'm a fast learner..
What was your college major?..	still attending..

Please describe your personality:..	I'd like to think that I have a charming personality. I'm smart, honest, <u>witty</u> and love to be around people. I'm very polite, but will be straight forward and speak my mind if necessary. Overall I'm a warm person with an "old soul"..

other? If so, tell us how you met: . .	needed to move out of my current house so I moved in with a friend who happened to live with my current boyfriend. That's it...2 years going strong! <3.
What are your hobbies? . .	As I said above, in the summer I love to hike, wakeboard, rock climb, play volleyball, basketball and swim. In the winter I LOVE snowboarding and going to the gym when I'm not on the slopes. I can do ALMOST anything I try. I also love to make and edit my own music. It's therapeutic and I love expressing myself. I also like to draw and paint when I'm in the mood for it. Lately, over the past year or so, I've been on a cooking spree. I love to cook and I'm kind of a natural at it. . .
Describe your perfect day: . .	There are so many days to be described as perfect, but I suppose my perfect day would be waking up next to my Boyfriend and <u>Morphious</u> with the sun peeking in through the window. A cool and gentle breeze circulating through the house making it almost feel like a magical morning...one of those mornings you can't stop being thankful to be alive. In this perfect day I would have no plans, no obligations, just an open day. I would spend it with my Boyfriend and any friends or family I could. There would be food, bike rides, laughter, sunshine and more food. This day would be my perfect day. . .
Who is your hero and why? . .	My Mother is my hero, hands down. <u>Cliche</u> , I know, but it's true. She is the most amazing woman I know. She is so strong and has helped me through so much. She thinks because she didn't finish college that it makes her less intelligent, but there are so many kinds of "smarts". She is what I aim to be as a Mother and as a Woman. I love her and appreciate her so much. . .
If Steven Spielberg were filming a movie about your life, + what famous actress would play you and why? . .	I suppose Lucy Liu would play me because there aren't many well-known Asian-American actresses. . .
What would you say is your biggest accomplishment in your life thus far? . .	I would honestly say just me turning out the way I have. Being so strong and sure of who I am and what I'm doing with my life. People that come from "broken homes" sometimes wallow in self-pity or become insecure and unstable. I love who I am and this is my biggest accomplishment thus far. I'm on my

	own, depending on no one but myself and planning my future. It's exciting and I can't wait to see what's next..
What do you hope to accomplish in your life in years to come?..	I want what a lot of people want. I want to finish school with a Masters and have a stable job that allows me time to travel this astonishing and beautiful place we live in. I want to have a good house and enough money to support the children I'm going to have with my husband. I want a simple and fulfilling life..
If you could meet anyone in the world, who would it be and why?..	My Grandfather. Though there are many famous people worth meeting, none outweigh him. He passed away when I was 3 and I never got to know him. I would love to hear his war stories or hear about his time in the internment camps. I would love to hear about what foolish and fun things he did while growing up. I want to hear what his laugh sounds like and make him laugh and smile as much as I could. One day, I hope I get a chance to do this..
Tell us about your most favorite vacation:..	Recently I went on a vacation with my boyfriend and his family. We road tripped to the Grand Canyon, Mesa Verde, Mojave Desert and Arches Natn'l Park. It was so nice just seeing different parts of the country I live in. Camping and getting to know his family even more, it was an overall amazing vacation..
If you could travel anywhere, where would it be and why?..	Everywhere? If I had to choose one place I would choose Egypt. Cairo to be exact. The pyramids always amazed me! Made around 2570 BC and they are still standing the test of time! It's crazy that even with our technological advances we still are baffled by these structures. Some stones you can't even fit a razor blade in between! These 25-80 ton stones were carried hundreds of miles. I want to know how I always have. I could go on about my thoughts and theories about the Egyptians but this tangent has gone on long enough..
What would you say is your biggest talent?..	I don't know if I have a talent worthy of being brought to the limelight. I play guitar well, but so do many other people. I guess I can cook better than everyone I know except my Grandmother.....so my cooking abilities..
Reason for becoming a donor:..	Now that I know what it's like to want children of my own, I want to help women who can't conceive on their own. The gift of life is the biggest gift I think
