Donor Data sourced by the Donor Agency ↕

Nick Name: Breanna5 ↕

Date of birth: September 27, 1991..

Location: Florida..

Are you adopted? No..

Height: 5'7" ..

Weight: 110 ..

Recent weight loss/gain: No..

What was your weight at age 21? 110 ..

Eye Color: Green ..

Eye Set (narrow/average/wide): Average..

Eye Size (small/average/large): Average..

Eye Shape (round/oval/almond): Oval..

Hair Color: Brown ..

Hair Color as child: Blonde..

Hair Texture (curly/wavy/straight): Straight..

Baldness: No..

Baldness in Family: No..

Premature Graying: No..

Skin Complexion (fair/medium/olive/dark): Medium..

Skin Condition: (oily/medium/dry/combination): Medium..

Bone Structure (fair/medium/excellent): Medium..

Body and Facial Features (small/medium/large): Medium..

Tan Ability (none/easy/medium/freckle): Easy..

Dominant Hand (right/left/ambidextrous): Right..

Vision (glasses/contacts/laser surgery/none): None..

Vision Quality (without corrective lenses): Excellent..

Hearing (without corrective aids): Excellent..

Blood Type: A Positive ..

Teeth (poor/fair/good/excellent): Good..

Any periodontal or orthodontic work: No..

Ethnic Origin (list countries): Caucasian..

Mother: My mother's grandfather was half German..

Father: Very small part of German and Hungarian..

Religion: Christian..

Religion Born Into: Baptist..

Have you ever been an egg donor before? No..

Pregnancies? Yes..

Number of children? One..

Current Occupation: Stay at home mom..

How long have you been at your current occupation: 2 Years..

Academics..

High School G.P.A: 3.8..

SAT/ACT score: N/A..

College: No..

Any learning disabilities or weaknesses in school? If yes, please describe:..

No.:

Academic Strengths (i.e. math, reading):

I love math, reading, English, and grammar...

Career goals:

I love staying home with my daughter. It would be nice to one day own a small business. I'm enrolled to start college in the fall and would like to major in Child and Human Development and minor in Business...

Personal goals:

My goals in life are to start and finish college; Raise my beautiful daughter to be a smart, kind and wonderful woman (as well as raising my future children up well too); Buy a house; give back to others and the world as much as I can; and travel a lot. One of my biggest goals wants in life is one day being a surrogate mother...

What have you accomplished so far? :

I've had an amazing little girl. I've fallen in love. I've traveled to 36 states and 2 countries. I've been a part of a mission trip to Mexico, which was such a wonderful experience. I've graduated high school and enrolled into college...

What are some awards/achievements you are proud of? :

Well, I was homeschooled through middle school and went to an online school for high school so I didn't have a chance to be awarded some of the awards that people going to a "normal school" would have. However, I was very proud to hold a 3.94 GPA for most of my high school experience...

Personality:

Hobbies:

I love to read and spent most free moments doing so growing up. I don't have as much free time to do so now but I read every chance I get. I love to DIY and am very crafty. I love up cycling things and love to make anything I put my mind to...

Artistic Abilities (i.e. musical, painting):

I took piano lessons for 2 years and can read music; I am able to teach myself any song to play on the piano. I enjoy drawing in my free time, as well...

Sports/Athletics:

I danced ballet, tap, musical theatre, hip-hop, and acrobatics for several years and was a part of many recitals...

Favorite subject in school: Math.

Favorite Books:

I could list books all day, if you wanted to know all my favorites. In school, my favorite author started as V.C. Andrews. I collected and read just about all of her books. I love reading anything by Jodi Picoult or Nicholas Sparks now. Plus I love many other books...

Favorite Movies:

I'd rather read than watch movies for the most part and I'm very indecisive so I don't know how I could list just one movie. Growing up my favorite genre was anything scary but nowadays I'm more into love stories, spiritual and inspirational movies. I loved "Letters to God", "...

Favorite Types of Exercise:

I enjoy dancing and running...

How would you describe yourself? :

本捐卵档案合计页为 12页

Profiles Presentation AnxinPage 5

Interview by GD

Donor Data sourced by the Donor Agency ↕

Nick Name: Breanna5 ↕

I was always labeled "shy" growing up, but I'm more so just quiet when I first get to know you. I'm very laid back. I'm friendly and polite and very well mannered...

What would you say is your best personality trait? ..

I'm very friendly and very trustworthy. I give everyone the benefit of the doubt and I believe in "second chances"...

What is your most unique quality? ..

I guess in the world today, my unique quality would be the want to help others. More often than not I meet people who could care less about others and just want what's best for them and the people directly around them...

Describe yourself as a child: ..

I was very active as a kid. I loved to play outside, climb trees, hike the woods, and climb small mountains. However, at the same time I was very calm and a lot of the time would rather read a book than play. I loved kids and loved to babysit and volunteer for anything to do with kids (ybs, camp, baby dance class). I loved school because I loved to learn. I got excited for math, reading, and spelling. I loved my friends and to play with them but from a small age, anytime we would have a family get together or something of the sort, I would rather be inside talking to the adults than swimming or playing tag and such. I thoroughly enjoyed learning about my grandparents past and hearing their stories. ..

What did your parents teach you to value?..

Family. My parents have always instilled family values and how important it is to remember that family will always be there...

Is there a person alive or dead whom you admire and why?..

I admire so many people; however I will choose my father for this. He's always been there for my brother and I. There were many times where we didn't notice it but in the end and looking back I see how much he cares. He's also come so far in life and has changed drastically from who he used to be and shows us how you really can go anywhere in life, it just takes hard work...

Who was the most important influence on you and why?..

My father has been a huge influence on me. No matter what decision I have made so far, I have always had him in the back of my mind. I have never wanted to disappoint him and more than anything I've always wanted to make him proud...

Why do you want to be an egg donor? ..

I love children. I always knew that I wanted to be a parent more than anything. Giving others the opportunity to have their own baby, to me, is one of the greatest gifts I could imagine. It is something that I've always wanted so deeply...

What message would you like to pass on to the recipient(s) of your eggs?..

I don't even know where to begin. I can't even begin to understand everything you have went through to get to the stage that you are at now. I hope that I can provide you with some very strong, healthy eggs to get you the baby you've always wanted. I want you to know that I will do everything in my power to stay healthy and I will take care of myself well so that I can hopefully provide you with the best that I can. I can't even begin to know what you are going through and I just want to be able to help you in any way I can. You will be on my mind every step through this process and I just hope that I can fulfill your dreams of becoming a parent or adding to your family. If you need anything or would like to know any more information I will do my very best to help you...

Cajun: N/A.

Have you or anyone in your family ever been tested positive as a carrier or had any of the following diseases?.

Blooms Syndrome: No.

Canavan: No.

Cystic Fibrosis: No.

Fabry Disease: No.

Familial Dysautonomia: No.

Familial Fever: No.

Fanconi Anemia: No.

Gaucher: No.

Niemann-Pick A: No.

Mucopolidosis IV: No.

Sickle Cell: No.

Tay-Sachs: No.

Thalassemia: No.

Is there anything else we should know about your family? No.

Personal and Family Medical History ..

(Please include yourself, mother, father, siblings, grandparents, aunts, uncles, and cousins).

Current allergies (food, pollen, bee stings, medications, etc.): My mother is slightly allergic to cats.

Childhood allergies you have outgrown: No.

Medical illnesses, such as asthma, diabetes, seizure disorders, etc.? My mother has asthma.

Do you have astigmatism (blurred vision due to an irregularity in the curvature of the cornea)?

No.

Do you have any dietary restrictions? No.

Cancer.

(including breast, colon or intestinal, lung, ovarian or uterine, prostate or testicular, skin, stomach, thyroid, blood (e.g. leukemia), other).

My paternal grandfather died of lung cancer (he was a smoker) and I believe it spread to his bones, as well...

Heart.

(including stroke, heart attack, heart disease, hardening of arteries, high blood pressure, high cholesterol level): None.

Blood.

(including anemia, sickle-cell anemia, hemophilia or other bleeding problem, blood clots or strokes, leukemia, immune deficiency, lymphoma, HIV, thalassemia, polyarteritis nodosa, other blood disorders):.

None.

Respiratory.

(including hay fever, asthma, emphysema, tuberculosis, lung cancer, pneumonia, cystic fibrosis,

本捐卵档案合计页为 12页

Nick Name: Breanna5 ↕

other lung diseases): My mother has asthma but hasn't had issues with it since her childhood. My paternal grandfather died of lung cancer (smoker). My maternal grandmother and great grandmother get pneumonia often. My maternal grandmother also has rheumatoid arthritis and it has spread into her lungs..

Gastro-intestinal..

(including appendicitis, ulcer of stomach or duodenum, gall stones, hepatitis A (infectious), hepatitis B (serum), hepatitis C, cirrhosis of the liver, hemochromatosis, other liver diseases, colon cancer, ulcerative colitis, Crohn's disease, pyloric stenosis, rectal disorder, multiple polyps of the colon, inflammatory bowel disease, cystic fibrosis, intestinal cancer, any other problem of the digestive system):..

My brother had ulcers for a little while after our parents divorced..

Metabolic/Endocrine..

(including diabetes mellitus, childhood diabetes, hypoglycemia, thyroid cancer, thyroid disease, goiter, adrenal dysfunction or disorder, metabolism disorder, hyperactivity, obesity, dwarfism):

None..

Urinary..

(including kidney disease, diseases of urinary tract (urethra, bladder, ureter), rectal disorder, polycystic kidneys, kidney stones): I had minor kidney reflux when I was real young that I grew out of by age 6. My maternal aunt had it as well when she was a child. My paternal grandmother has had kidney stones a couple of times..

Genital/Reproductive..

(including uterine fibroids, hermaphroditism/ambiguous genitals, undescended testicle, hypospadias, prostate cancer, ovarian cysts, cancer of ovaries, pelvic inflammatory disease, endometriosis, breast cancer, multiple miscarriages, stillbirths, childhood deaths): My maternal grandmother had two miscarriages but she had 6 full-term births so she says it was from getting pregnant too soon after having a baby..

Reproductive Outcomes..

(including 2 or more miscarriages, stillborn, premature menopause, death of a newborn infant, childhood death, birth defects, infertility, premature birth): As stated above: My maternal grandmother had two miscarriages but she had 6 full-term births so she says it was from getting pregnant too soon after having a baby..

Neurological..

(including migraines, mental retardation, senility before age 50, multiple sclerosis, cerebral palsy, multiple sclerosis, epilepsy, ADD/hyperactivity, autism / asperger's, hydrocephalus, tuberous sclerosis,.)

PGM disorder of spinal cord, Huntington's chorea, Gaucher's disease, myasthenia gravis, Wilson's disease, Creutzfeldt-Jacob disease, Alzheimer's disease, Parkinson's disease, neurofibromatosis, scoliosis, Tay Sachs, Canavan disease, tourette's syndrome, other diseases of nervous system):

None..

Mental Health..

(including anxiety/panic attacks, anorexia/bulimia/other eating disorders, schizophrenia, manic depressive, bipolar disorder, alcoholism, drug abuse/misuse/addiction, depression, suicide/attempted suicide, nervous breakdown, mental retardation, criminal convictions, or other disorders requiring hospitalization): My paternal grandfather is said to have been an alcoholic but

本捐卵档案合计页为 12 页

Donor Data sourced by the Donor Agency +1

Nick Name: Breanna5 +1

I don't know him...

Muscular/Bones/Joints..

(including muscular dystrophy, lupus, deformity of spine, osteoporosis, dwarfism growth problem, brittle bones, loss of muscle coordination, marfan syndrome, rheumatoid or juvenile arthritis, spinal muscular atrophy, hereditary low back disease/scoliosis, arthritis, gout, Lupus, Reiter's disease, myasthenia gravis, other chronic muscle disease): My paternal grandmother and myself both have very mild scoliosis. It has never affected me. My maternal grandmother has rheumatoid arthritis..

Sight/Smell/Sound..

(including deafness before age 60, deformity of the ear, cataracts before age 50, blindness, color blindness, severe myopia, glaucoma, retinoblastoma, retinitis pigmentosa, deviated septum, any other disorders): None..

Skin..

(including acne, albinism eczema, skin cancer, excessive facial hair (Hirsutism), pigmentation disorders, psoriasis, neurofibromatosis, infectious skin disease, other skin disorders): My mother had mild acne as a teenager...

Congenital Abnormalities/Birth Defects..

(including cleft lip/palate, congenital hip problems, club feet, heart defect, hearing problems, Spina Bifida (open spine), microcephaly, holoprosencephaly, other): My maternal cousin was born with a small hole in his heart. It has never kept him from leading a normal life, he just had a checkup one to two years...

Chromosomal Abnormalities..

(including down syndrome, Turner, Fragile X, other): None..

Other..

(including alcoholism, drug abuse/misuse/addiction, premature degeneration of any organ system, any other condition): As mentioned above, my maternal grandfather was said to have been an alcoholic. ..
