Nick Name: Naomi

Any learning disabilities or weaknesses in school? No

Academic Strengths (i.e. math, reading): Writing, English, spelling, chemistry, art. I am a visual learner. I learn by seeing things and doing them. Hands on.

Career goals: Studying fashion design, would like to have my own Fashion company.

Personal Goals: Travel the world, continue education because you can never know enough information, get married, have a family, help support research for breast cancer awareness, help a family each Christmas, volunteer to help those less fortunate than myself, learn to cook more dishes from different cultures, read a ton of books.

What have you accomplished so far? Most of my personal goals are ongoing, but I have been working towards each of them.

What are some awards/achievements you are proud of? GPA, I prize good grades in my education because I work hard and put my best effort into everything I do.

**Personality**

Hobbies: Crocheting, sewing, reading, drawing, puzzles: jigsaw and crossword, painting, DIY projects, listening to music, movies, camping, and walking for fitness.

Artistic Abilities: Painting and drawing

Sports/Athletics: Softball, track, and dance team

Favorite subject in school: Art History

Favorite Books: Atlas Shrugged, Music of The Dolphins, Don't Die My Love.

Favorite Movies: Armageddon, 27 dresses, P.S. I love You, Unstoppable, Hope Floats, La Bamba, Lilo and Stitch, Aladdin, The Little Mermaid, Finding Nemo, Milan, pretty much all Disney Movies ☺.

Favorite Types of Exercise: Walking and Hula hooping.

How would you describe yourself? I'm easy going and simple. I can be stubborn at times. I am ambitious and goal oriented. I like learning new things and seeing new places. I like going out, but I also like staying in. I can be impatient at times, but who isn't. I don't like being embarrassed lol- my daughter is the same way. I am a hopeless romantic and love watching sappy romantic movies. I'm not fond of being the center of attention. I like to think I present myself as approachable, friendly, and easy to talk to.

What would you say is your best personality trait? I'd say it's that I can get along with almost

Nick Name: Naomi

everyone; I' m very friendly and easygoing.

Describe yourself as a child: Quiet, shy, smart, and a quick learner. School always seemed easy to me.

What did your parents teach you to value? Education. Knowledge is power and you can never have too much intelligence. Honesty, because lying only hurts you and the people around you. Appreciation for the things I have, earn, and accomplish.

Is there a person alive or dead whom you admire and why? I admire people who can give to others. There' s nothing more powerful than a person willing to give something of his or hers so someone else can have a good life. For example, donating clothes to someone so they can find a job or giving someone food so they can feed their family. Adopting a family at Christmas time so they can give their children a good Christmas.

Who was the most important influence on you and why? My mother, because she has struggled to raise us over the years and taught us to appreciate the little things in life.

Why do you want to be an egg donor? Personally, I have always wanted to give someone the gift of life. Before I had my daughter, I wanted to be able to help someone who couldn' t have children to have one. That meaning is so much more powerful now that I have experienced pregnancy and being a mother. This is a priceless gift that someone will love and cherish for the rest of their lives. I would love to feel like I made a difference in someone' s life by giving him or her the gift of a child.

What message would you like to pass on to the recipient(s) of your eggs? I hope that the recipient loves their child as much as I love my own. Children are a remarkable gift that will keep giving back throughout the years. Cherish every moment!

Are you open to donating to a single person? Yes

Are you open to donating to a gay person or gay couple ? Yes
