Describe your personality and character:	I'm shy when first meeting people but open up quickly. I'm an artsy person who loves to be creative and design things so they look pleasing to the eye.
How would you describe your childhood?	A good time, why did it fly by so fast?? I grew up with two loving parents and a younger brother. (I admit I picked on him when we were little) We had a big backyard with a swing set and a sandbox where we would always be in the summer and in the winter we had a hill to sled down.
What's your favorite childhood memory?	Family vacation to the Black Hills in South Dakota probably. I love to travel so that may be why.
Who has been the most influential person in your life, and why?	Probably my Dad, he has always been a very hard worker with multiple jobs to support our family. He is gracious and genuine and willing to do anything for our family. I would like to be the same way.
What awards/accomplishments are you and your family most proud of?	My high school was a very small private school with very hard classes. My college classes were actually a piece of cake compared to high school. Graduating with an A average, I would say I am very proud of.
Describe some of your hobbies and interests:	I enjoy photography, cake decorating and scrap booking.
What sports or activities have you excelled in?	I played soccer when I was younger but I no longer enjoy playing sports. I would rather have a camera in my hand.
Describe any artistic/musical talents you have:	I have a good eye for design, the way things are laid out and what colors go well together, things like that. I LOVE music but I couldn't tell you how to play any of it.
What are your future goals?	To one day have a successful photography business of my own and to travel more with my family.

you be and why?

Why do you want to become a donor?

Being able to give something that someone really wants is a great feeling. At Christmas I always like the giving better than the receiving.

Do you have a message you would like to share with the recipients?

Hope this profile gives you a good idea of myself and I would be willing to answer any questions anyone might have.
