If you could be animal, what would you be and why?

A Bird. I love the idea of being able to pick up and fly around looking at things.

Why do you want to become a donor?

My brother is an OBGYN who specializes in family planning so I have heard about the time and pain that can be involved with trying to become pregnant. I would like to aid in that process for a family who is unable to conceive on their own. My roommate also recently donated her eggs and had such a wonderful and rewarding experience that it has really driven me to want to take part.

Do you have a message you would like to share with the recipients?

Thank you for considering me to be your donor, as I truly look forward to helping a loving family grow. Good luck and I hope that you are able to find the happiness in creating a child that you deserve.
