<b>Freckles:</b>	No
<b>Acne:</b>	Yes
<b>At what age?</b>	14-17

<b>Describe your personality and character:</b>	I am fun and try to see humor in everything. I am easy-going and have the ability to get along with just about anyone. I am hard working and have strong ethics. I am dependable and realistic, but can definitely let my imagination go. I am creative and am always trying to think of inventions I should create. I am artistic and love the environment and a person's heart is the most important factor when finding a friend or significant other.
<b>How would you describe your childhood?</b>	My childhood was great. I was raised going to church and was a well mannered kid. I went on a few really good vacations and made a trip to Disneyland about twice a year. We were middle class and I never worried about if I was going to be fed or have shoes. I am very thankful to my parents for sacrificing a lot in order for me to have a good private school education, which definitely helped me get a head start academically. I have one full-blooded sister and one half-sister who are my best friends today.
<b>What's your favorite childhood memory?</b>	My favorite memory was probably all the Disneyland trips. My parents would let my sister and I go off and enjoy the day by ourselves. We did this about twice a year for about 10 years. My sister is my best friend and we had a really good time. Even now, she and I have annual passes to Disneyland and we go frequently together. The memories that we create now wouldn't mean nearly as much to us if we hadn't been so close growing up together and going to Disneyland.
<b>Who has been the most influential person in your life, and why?</b>	The most influential person in my life is my Mom. I love her so much and she has been nothing but supportive of everything I do. From my crazy invention ideas to going back to school, she has been there rooting for me. Emotionally she is the strongest person I know. I remember when Grandma passed away (Mom's Mom) she handled it really well, I think I was having a more difficult time with it than she was. My Dad was kind of on the side-lines during my teens, so she was a big part of my life during my adolescence and kept me going

	in the right direction.
<b>What awards/accomplishments are you and your family most proud of?</b>	I am probably most proud of graduating with a Master's Degree. I worked really hard to get the money together for tuition and didn't have to take out a loan in order to go to school. My Mom is very proud of me also; she has her Master's Degree as well. My family is well educated. Both of my sisters are extremely smart. One sister has a Bachelor's, Master's and PhD, while the other has two Bachelor's Degrees.
<b>Describe some of your hobbies and interests:</b>	I love music. I play a little guitar and mandolin. I love to play tennis and baseball is my favorite sport to watch. I also did gymnastics growing up and I am still flexible. I like to run also. I usually do at least one 5k a year. I like the environment and religiously recycle. I like to cook and bake as well. I am vegetarian so I like to see what new dishes I can make to trick my family into eating healthier.
<b>What sports or activities have you excelled in?</b>	I love tennis and gymnastics. I grew up playing tennis with my family and have gotten pretty good. I also like gymnastics a lot. I am very flexible and even at my age I can bend and cartwheel all over the place. I also have done well at art. I took about 7 years of oil painting classes when I was in elementary and middle school and have won awards in the County Fair for my paintings. I am academically inclined. I skipped a grade in math at an early age so I was able to take AP Calculus in High school and I then took another year of calculus in college.
<b>Describe any artistic/musical talents you have:</b>	I can play guitar and mandolin a bit. I used to have a keyboard growing up and was very attached to it. I took about 7 years of oil painting classes growing up and won a few awards in the County Fair. I still enjoy sketching and my sister lets me play guitar and mandolin in her band once in a while. I also am crafty. I have a shop on <u>Etsy.com</u> where I sell aprons that I hand make.
<b>What are your future goals?</b>	My future goals include traveling and eventually I would like to start a family of my own. I've been working really hard to solidify my career, so I will have to take time to finally settle down. I would like to eventually go to the top in my career and be the manager of my department. On a non-professional level, I would love to learn another

For Fun

<b>Favorite movies:</b>	I enjoy comedies. I also loved Jaws. I liked Ghostbusters, Star Wars, anything Disney, Pretty in Pink, the Vacation movies with Chevy Chase, The Goonies and the Indiana Jones group of films.
<b>Favorite Books:</b>	Some of my favorites are classics like Treasure Island or The Adventures of Huck Finn. Others that are on my shelf are

本捐卵档案合计页为 13 页

Donor Data sourced by the Donor Agency

Nick Name: Kristal

	Revolutionary Road, Catch 22, the Goosebumps series (don't know who actually remembers those though) On The Road and The Catcher in the Rye. I like cookbooks as well.
<b>Favorite type of music:</b>	Mostly alternative, but I like to dance too. From rap to country, I will listen to it. A few of my favorites are The Cure and The Clash. I like classic rock as well, such as The Who, Pink Floyd or Credence Clearwater.
<b>Favorite food:</b>	My favorite food is probably nachos. I love Mexican food, but I love Asian as well. I love tofu and cook it often. Eggplant parmesan is another favorite.
<b>Are you a good cook?</b>	Yes, I make a variety of things. I will make my own hummus and made-from-scratch soups. I have a garden in the back with zucchini and peppers of all kinds and lots of fresh herbs. I love to make salsa and anything with fresh basil. I also really like to bake. I make a really good orange/chocolate cake.
<b>Do you sing in the shower?</b>	Yes I sing in the shower but only when nobody else is home.
<b>What's your favorite season?</b>	Fall. I love the change you feel when it gets a little colder and you know the holidays are coming. The sound of the leaves tumbling through the street is timeless and I never stop appreciating it.
<b>What's your favorite holiday?</b>	Thanksgiving
<b>If you could be animal, what would you be and why?</b>	I would want to be a duck at Disneyland.. it's well fed and you're always at the happiest place on Earth.

<b>Why do you want to become a donor?</b>	To help a family who needs it. I know what it's like to not be able to have at least a choice in having a child. My oldest sister, the half-sister had a bad surgery and is missing part of her uterus now and she can't have kids so I would do the same for her if she asked me to. I know how difficult it can be and what it feels like to want something and not be able to make it happen. I just want to help a family who would let me, because it's not about me, it's about the family and making other people happy. Good karma is important to me.

Do you have a message you would like to share with the recipients?

I am a good person and would like to help you in any way. I am educated and in good physical shape with no medical issues. I commend you for seeking a little help and it takes a lot of courage to get the help to get a family going. I would just be happy to help any way I could.
