Skin	
Tone:	Light
Ability to tan:	Yes, I have the ability to tan.
Freckles:	some
Acne:	No

Describe your personality and character:	My personality is a very outgoing and social one! I enjoy being around others more than anything. Being social is a strong suit of mine, I can strike up a conversation with most people. I also really enjoy making others laugh. Beyond that, I would describe myself as determined. Once I have my sights set on something, I go for it until I get it. I also am a very empathetic person, I feel highly connected to other people.
How would you describe your childhood?	My childhood was not unlike that of many other people. I grew up in a small, conservative town. My dad passed away when I was very young and my mom worked. So my siblings and I spent a good deal of our childhood with our grandfather. He took us to church every Sunday, taught us how to cook, ride our bikes and things of that nature. Of course, our family had our problems as does everyone. We did not have a lot of money, so I began working as soon as I could. I have paid for almost everything that I own since High school. Other than that, my childhood was wonderful.
What's your favorite childhood memory?	It is difficult to pick my favorite childhood memory. But if I had to narrow it down, I would say every Christmas from ages 5-9. When my mother was married to my step-dad Kevin we were all very close. My brother, sisters, cousins and I were all young but close in age range. The family as a whole was a very close knit family, even the extended family. Every Christmas Eve we would all drive an hour to our Aunt and Uncle's house for dinner and (some) presents. Uncle Buddy would dress up as Santa and come do magic tricks and give us little presents. We had no idea it was him! Then we would all get our Christmas pajamas on and head back to our grandma and grandpa's house. All of us cousins would sleep together. We would race to the living room Christmas

	morning and ALWAYS found it overflowing with presents. This is my favorite memory because we were all together and so happy.
Who has been the most influential person in your life, and why?	My Aunt Kim is by far the most influential person in my life. She is only my Aunt by marriage and when my mother divorced her brother we still stayed very close. She is my twin soul, there is no better way to explain it. Growing up, she had a very rough childhood and a turbulent relationship with her mother. This helped when I had problems at home or with my mother. She was always there for me to help with anything I ever needed. When I am struggling with anything financial, emotional, academic or anything she is my safe haven. I spent every summer with her from middle school until my senior year of High school. For three of those summers I helped run her church's vacation bible school program. We also took vacations and other things. I cherish those memories most because she taught me a lot. She taught me what it means to be a strong and independent woman, what it means to work for things, to forgive and many other priceless "life lessons". It is hard to put our relationship into words.
What awards/accomplishments are you and your family most proud of?	It may sound silly but I am most proud of my academics and where I go to school. My mother had me very young and my Dad didn't live long enough to even attempt a higher education. So the fact that I am at a place like my current university and will graduate with honors is a big deal.
Describe some of your hobbies and interests:	I really enjoy being active and being outside. If I have free time I will go for a run, bike ride or try to get a basketball game going. I also really enjoy reading. During school there is not much time for recreational reading but in the summer I like to read at least 2-3 books. Writing is also something that I enjoy. I like to write anything from a comedic skit to a song.
What sports or activities have you excelled in?	I have tried a wide range of sports in my lifetime. In High school I was on the tennis team. In college I participated in cheerleading as well as intramural soccer and softball. However, running is my all time favorite. I run at least 3 miles a day and more if I can. I have begun training for my first half marathon!
Describe any	Musically I am less talented compared to other areas. I enjoy

artistic/musical talents you have:	singing and used to be in choir throughout middle school and part of High school. My singing now only goes as far as YouTube videos and open mic nights when there is nothing else to do ! I also have recently started teaching myself how to play the guitar.
What are your future goals?	My first future goal is to finish my college education and obtain my degree. Beyond this, I just want to live a life of purpose. I want to get to a financially comfortable place for myself and be able to help others.

Reproductive History

Have you ever undergone any fertility treatments to become pregnant?	No
Intervals between periods:	28 days
Are your periods regular?	Yes
What method of birth control are you presently using and for how long?	Condoms as needed
How many days does your menstrual flow typically last?	6
Has anyone in your family had multiple births i.e. (twins, triplets)? Please explain.	My Maternal great grandmother conceived twins, but only carried one full term.

Donor Data sourced by the Donor Agency

Nick Name: Ashley

Favorite movies:	My favorite movies are 1. Titanic 2. Harry Potter and the Half Blood Prince 3. Bridesmaids 4. Sleepless in Seattle
Favorite Books:	1. The Hunger Games Trilogy 2. The Harry Potter Series 3. The Secret Garden 4. The Catcher in the Rye
Favorite type of music:	It is really hard for me to narrow down my favorite type of music because I really enjoy most music. However, right now I am most into alternative/rock music.
Favorite food:	My favorite food is any pasta dish! I love pasta, but mainly lasagna.
Are you a good cook?	Truthfully, I am an awful cook. I just recently mastered the grilled cheese and pancakes! But that is as far as my talent ranges so far.
Do you sing in the shower?	Always!
What's your favorite season?	My favorite season is Spring. It has the best weather of all of the seasons! I love it because it is warm enough to wear a sundress or go play a game of basketball but chilly enough to not overheat. It is perfect.
What's your favorite holiday?	Fourth of July
If you could be animal, what would you be and why?	If I could be any animal, I would be a Cheetah. Cheetahs are able to outrun almost any other animal, which I think would be a fun ability to have. Also, they live in one of the most beautiful areas of the world.

Why do you want to become a donor?	I want to become a donor because I want to be able to help people. I know that there are many deserving parents in our country and around the world that are unable to conceive. With my eggs, they will be able to have the family that they deserve and want. Helping someone will also help me a great deal. Because I am a struggling college student, the money I will receive will allow me to focus on my classes as opposed to working as many hours as I can.
Do you have a message you would like to share with the recipients?	To Potential Egg Recipients - After taking time to review and read my profile, I hope I have something to offer. I am a very confident that you are well deserving
