I am a free spirit and down to earth person. Family and friends describes me as honest, kind, loving and compassionate. I am very determined and set high goals in my life. I strive to be better in everything I do. However, I refuse to put myself down if things don't go the way I plan. I am firm believer in the American dream of working hard and it will pay off in the end. Moreover, I am a big believer in Karma and doing what is right. I try my best to be a very good person and treat others the way I want to be treated. My motto in life is Hakuna Matata, taken from Disney Lion King. The translation is it means no worries, I work hard and play hard in life. I believe that we all live once and we should live life to the fullest.

How would you describe your childhood?

I was raised by two amazing parents. My childhood consisted of many great memories with my families and friends. My parents are refugee from a war tom country of Cambodia in the late 1970's due to the communism. When we arrived in the United States, our family remained very close and relied on each other. My father was a hard worker and tried his best to give my family a better life. I am the youngest in my family and loved very much by my two older sister and brother. I grew up in a troubled area of the city during the 1990's but soon afterward we moved to a different part of the city. I remember my childhood as spending every Sunday at the beach and eating delicious cooked BBQ and playing ball with kids in my neighborhood. My mother would put me to bed every night and told me bedtime stories of myths and folklore from Cambodia. Every year, I had a big birthday party and all my friends would come over and celebrate. I am also very bright in school and my parents are very proud of all the awards I received during my years in elementary school. I am very blessed to have a great childhood and grew up to be the
