<b>Describe your personality and character:</b>	I am a hopeless romantic - I believe that there's a soul mate out there for everyone. I trust people easily and I've been told that I'm too caring. I try to see the best in everyone and I would sacrifice anything for my family, any day. For the past 2 years, instead of obtaining my vocational license, I took care of my grandfather and the household, while my grandmother went to Vietnam to take care of her mother. I am compassionate, a bit of a perfectionist, very selfless and very motivated.
<b>How would you describe your childhood?</b>	My childhood was very cheerful, filled with adventures with my sisters, my cousins and my grandparents.
<b>What's your favorite childhood memory?</b>	I remembered my grandparents used to always take me and my sisters out every weekend - to the mall, to the movies or to the zoo.
<b>Who has been the most influential person in your life, and why?</b>	The most influential person in my life would be my grandfather - he's my rock. I grew up without my father in my life, so my grandfather basically took over that role for me. He helped raised me a lot - he was the one that guided me into nursing and I couldn't be more appreciative.
<b>What awards/accomplishments are you and your family most proud of?</b>	We are most proud of me achieving my nursing license - especially with going through all the hardships of finances and my grandfather being sick.
<b>Describe some of your hobbies and interests:</b>	I love being at the beach - I believe there's a sense of calmness when I am there and that's usually my choice of place when I need to just get away and be by myself and/or the gym. I love shopping, dancing, singing and I love watching movies - all types of movies. I love spending time with my family whenever it is possible, especially since everyone in my family either works or goes to school.
