Ability to tan:	I can tan after a while.
Freckles:	Yes, but light.
Acne:	No

Describe your personality and character:	I'm probably too sweet and shy at first but I open up. I am friendly and wear my heart on my sleeve.
How would you describe your childhood?	My childhood was very active. I played softball my whole life. I have two wonderful loving and supportive parents.
What's your favorite childhood memory?	My favorite childhood memory is anytime I was with my best friend, Logan. We were always swimming and playing ball and everything we did was the highlight of my day.
Who has been the most influential person in your life, and why?	My mother has been the most influential person because she has been through a lot. A lot that I probably wouldn't be strong enough to handle but she did and is still able to smile and I admire her for that.
What awards/accomplishments are you and your family most proud of?	I think it may be my High school diploma. I had my first child my senior year of High school, just a couple of months before graduation. A lot of girls that age drop out but I didn't. And I will be graduating dental school on August 16, 2013 to further succeed.
Describe some of your hobbies and interests:	I love softball and tennis. I love to spend time with my children at the park or making arts and crafts. They are my world. I love to shop and hang out with my friends.
What sports or activities have you excelled in?	It would definitely be softball as I mentioned before. I have played my whole life and including all of High school.
Describe any artistic/musical talents you have:	Ha, I can play the radio. I love music but talented is not a word I would use in that area.
What are your future goals?	My future goals are to graduate college, become a dental assistant and finally marry my fiance!
