	needed.
What would you say is your biggest accomplishment in your life thus far?	My biggest accomplishment is completing my degree. There were so many times I felt like I was never going to get to the end and there was no light at the end of the tunnel. It was such a relief and great feeling when I finally made it. It's a big chapter to have passed!
What do you hope to accomplish in your life in years to come?	In the years to come I want to continue school. I plan to get a second bachelors degree in nutrition. From there I hope to work in a hospital. My boyfriend and I would also like to travel around some and just enjoy life.

If you could travel anywhere, where would it be and why?	I would actually like to travel to a place like Nicaragua. I think it would not only be a rewarding vacation but the experience in the villages and the culture shock is what I would really be looking for. I had a friend who went over there and did some volunteer work and said it was some of the coolest things he'd ever been involved with.
What would you say is your biggest talent?	I'd say my biggest talent is making the best out of situations. It took a long time to really learn not to stress or worry about things that simply cannot be changed. Its important to always focus on what can be and how it can be. Everyday can be the greatest day ever if thats what we choose to see.
