Nick Name: Melissa.

Sports/Athletics: My parents never encouraged or put me into any athletic activities as a child. I wanted to do Ballet/dance with my cousin but they were afraid I'd break my legs! I did like physical education though. I was always one of the best and fastest in class... does that count? +

Favorite subject in school: I love English because of the readings they would make us do. A lot of my favorite books are derived from my English classes. I hated math at first, but it was fairly easy as I grew to understand it. I received A's and B's in High school. As for calculus in college, I am proud to say I received A's and B's. I worked hard for it. +

Favorite Books: Childhood favorites: If You Gave A Mouse A Cookie, The Hungry Caterpillar, Brown Bear, I'll Always Love You, Goosebumps series, -Jr. high and High school Favorites: Angela's Ashes, To Kill A Mockingbird, The Outsiders, Charlotte's Web, Hamlet, The Catcher In The Rye, Anne Frank: The Diary of a Young Girl, Of Mice and Men, The Odyssey, Harry Potter(7), The Unfortunate Series by Lemony Snicket. +

Favorite Movies: Children Movies: Toy Story, Lion King, Mulan, Lilo and Stitch, Shrek, Pocahontas, Snow White and a lot of other Disney movies. Adult: Eternal Sunshine For The Spotless Mind, Moulin Rouge, Pirates of The Caribbean(3), American History X, Fight Club, Stardust, Ocean 11, Nacho Libre, Blood Diamond, Spiderman. There are so many to name, I'm usually and easily entertained by all genres. +

How would you describe yourself? I'm more extroverted, but still really shy at first. Once I'm comfortable enough, I'm really silly and fun to be with. It takes a lot to get me irritated, but if some thing is not fair I would definitely get upset. I speak my mind when it's appropriate. I do care what my peers think but I am not one to conform. I LOVE animals and once wanted to be a Veterinarian... but then realized that blood and guts makes me queasy! I hope to one day open a sanctuary for dogs and cats from broken homes. I like to cook and I'm still trying to learn more Vietnamese recipes. I get excited over food and I love trying new kinds. I'd pick Asian food over American any day. +

What would you say is your best personality trait? I am sweet, thoughtful, compassionate, caring and very understanding. I'm better at listening than speaking. +

What is your most unique quality? I can be ambidextrous. I write and eat with my left hand but with almost everything else I use my right. I'm the only person in my immediate family that's left handed. I think I got it from my mom's side of the family because +

my cousins are left handed and so are my aunts. +

Describe yourself as a child: As a child, I was very adventurous, social and confident. I wasn't really a girly girl up until junior high. I was more of a leader than follower. I used to pick on kids (but I'm a nice girl now.) I used to bring stray cats and other little animals home. +

Why do you want to be an egg donor? I am interested in woman's fertility and

amazed how there are so many couples who are not able to conceive. If I can give someone their dream of having a child come true, I say why not. Maybe someday I will volunteer as a surrogate too. +

What message would you like to pass on to the recipient(s) of your eggs? My parents always said "wait till you have kids, then you will understand." I'll be up for the challenge one day, but you are ready now so I wish you the best and hope your children will bring lots of joy and memories to your family. +

Are you open to donating to a single person? Yes +
